

Welcome to the Course

Thank you for joining this course!

Before we begin, these are the basic requirements for this course:

Prior knowledge	This course requires good familiarity with Python, the command line interface, and the CrewAI framework.
Programs & setup	Students can follow along with any code editor – such as Visual Studio Code. Students will need to install Python version 3.11. or later. Students will also need to obtain an OpenAI API key, which may incur a cost. The setup of Python and a code editor for Python is NOT covered in this course. You can find basic setup information in the following resources: • Visual Studio Code • Python
